

Fire Door Focus

Safety and lives first.

A ONE-PAGE GUIDE - FIRE DOOR CERTIFICATION

No paperwork is now a red flag in itself

Inspectors and enforcement officers increasingly ask for documented evidence first – and its absence is treated as a failing on its own. Certification turns completed work into proof you can hand over in seconds.

Build the 'golden thread' as you go

Whether or not a building meets the Building Safety Act 2022's higher-risk definition, the direction of travel is the same: a complete, accessible, audit-ready history of every fire door's installation, inspection, repair and certification.

Same-day, digital certificates

Every completed job produces a certificate for the door or doorset, issued same-day, held digitally and ready for a full audit trail. Reporting through our Proprietary 'Still Standing' App gives a cloud-accessible record that maps directly onto golden thread requirements.

Why responsible persons choose us

UK Fire Door Training certified, Citation approved and fully insured, covering Cornwall and Devon. Certify is one of four joined-up services – Inspect, Install, Certify, Maintain.

BY THE NUMBERS

£50,000 – the fine handed to the company responsible for Birmingham's Centenary Plaza in October 2025, after fire door works required by a council improvement notice were left undone.
